

INSPECTOR 920

ADVANCED ABS, BRAKE, AIR, & ELECTRICAL DIAGNOSTICS

SIMPLIFY VEHICLE DIAGNOSTICS

With a short 10-minute trip around a trailer, a single tech can complete a thorough trailer inspection including advanced ABS, electrical, lights, air, and brakes.

MINIMIZE TRAINING

The INSPECTOR 920's 4-line digital display and easy to follow instructions allow technicians of all levels to diagnose and repair DOT issues at an expert level. Online training videos are available 24/7/365.

FREE SOFTWARE UPDATES FOREVER

As ECU manufacturers update their systems to meet the ever evolving trailer monitoring systems, LITE-CHECK will update ours to read and display any and all faults available over PLC.

INCREASED ACCURACY

The LITE-CHECK INSPECTOR 920 provides technicians with more data leading to more accurate diagnosis and complete repairs. No more "trying a fix." Technicians know what the problem is and how to fix it the first and every time.

The LITE-CHECK, INSPECTOR 920, ABS, brake, light, air, and electrical diagnostic trailer tester removes all guesswork from trailer repairs.

This next generation trailer tester with clear and accurate digital diagnostic messages, requires minimum training. This system automates LITE-CHECK's 3-step ABS process which drastically cuts down ABS troubleshooting time.

All post 2001 PLC ABS codes are included with the INSPECTOR 920 along with the latest roll stability codes from the leading manufacturers. This incorporation combines multiple operations and tools into a single simple process. The INSPECTOR 920 automatically identifies the ABS ECU, any issues, and displays manufacturer recommended repairs in a simple four-line textual display. This eliminates the need to read blink codes and flip through numerous manuals to determine what the problem may be and what the recommended fix is.

With the included full function remote control, the INSPECTOR 920 will simplify your trailer inspections with single 10-minute walk around to check the air system, electrical system, lights, brakes, and ABS operation.

The INSPECTOR 920 complete trailer diagnostic tester incorporates TMC recommended practices and federal vehicle requirements to meet your CSA requirements.

PERFORM COMPLETE INSPECTIONS WITH THE FULL-FUNCTION REMOTE CONTROL

EASILY READ ALL FAULTS AND ABS INFORMATION FROM THESE ABS SOLUTION PROVIDERS

INSPECTOR 920 PACKAGES

ITEM NO.	DESCRIPTION
18104	<p>INSPECTOR 920 BASE PACKAGE The base package provides everything required to start utilizing the Inspector 920 in your operations.</p> <p><i>Includes: (1) Inspector 920, (1) Remote Control, (1) 8' 7-Way Cable, (2) 8' Hoses with QD and Gladhand Connections, and (1) Filtered Air Regulator.</i></p>
18098	<p>INSPECTOR 920 SHOP PACKAGE The Shop Package provides everything required to operate and maneuver the Inspector 920 in a shop environment.</p> <p><i>Includes: (1) Inspector 920, (1) Remote Control, (1) 4-Wheel Cart, (1) 8' 7-Way Cable, (2) 8' Hoses with QD and Gladhand Connections, and (1) Filtered Air Regulator.</i></p>
18099	<p>INSPECTOR 920 SERVICE TRUCK PACKAGE The Service Truck Package provides everything required to easily operate the Inspector 920 from a mobile service truck.</p> <p><i>Includes: (1) Inspector 920, (1) Remote Control, (1) 20-foot 7-Way Cable, (2) 20-Foot Hoses with QD and Gladhand Connections, and (1) Filtered Air Regulator.</i></p>
18097	<p>INSPECTOR 920 FULL SHOP PACKAGE WITH 137 OUTPUT TESTER Everything required to do a complete vehicle inspection in a shop environment including truck and trailer output.</p> <p><i>Includes: (1) Inspector 920, (1) Remote Control, (1) 4-Wheel Cart, (1) 8' 7-Way Cable, (2) 8' Hoses with QD and Gladhand Connections, (1) 313S Power Supply, (1) 137 Truck and Trailer Output Tester, and (1) Filtered Air Regulator.</i></p>

INSPECTOR 920 ACCESSORIES

ITEM NO.	DESCRIPTION
18085	<p>313S POWER SUPPLY The 313S Power Supply produces a constant 13.8 Volts of power. Alleviates the need for 12-Volt batteries.</p> <p><i>Includes: (1) 313S Power Supply</i></p>
18098	<p>137 TRACTOR & TRAILER OUTPUT TESTER Know exactly the electrical and air output from your tractors, trailers, and dollies with the 137 Truck and Trailer Output Tester.</p> <p><i>Includes: (1) 137 Tractor & Trailer Output Tester, (1) 4' 7-Way Cable, (2) Connected 4' Hoses with Gladhand Connections</i></p>
18040	<p>PEDAL ACTUATOR, MODEL 330A The pedal actuator allows for the movement of the brake pedal and braking system in the truck's cab with the INSPECTOR 920.</p> <p><i>Includes: (1) Pedal Actuator, (1) 10' Hose, (1) Quick Disconnect</i></p>
18008	<p>300P SHOP KIT Everything needed to get your INSPECTOR 920 ready for use in the shop.</p> <p><i>Includes: (1) 4-Wheel Cart, (1) 8' 7-Way Cable, (2) 8' Hoses with QD and Gladhand Connections, and (1) Filtered Air Regulator</i></p>
18049	<p>302A SHOP ACCESSORY KIT This kit has the minimum equipment needed for the INSPECTOR 920 to be used.</p> <p><i>Includes: (1) 8' 7-Way Cable, (2) 8' Hoses with QD and Gladhand Connections, and (1) Filtered Air Regulator</i></p>
18012	<p>301M SERVICE TRUCK ACCESSORY KIT Everything needed to get your INSPECTOR 920 ready for use from a service truck.</p> <p><i>Includes: (1) 20-foot 7-Way Cable, (2) 20-Foot Hoses with QD and Gladhand Connections, and (1) Filtered Air Regulator.</i></p>
